

ENDLESS OPPORTUNITIES

...WHEN A PLAN COMES TOGETHER!

RON CROSS
Commission Chairman

I suppose only older folks remember the TV show called the "A Team" in the early eighties. One of the main characters, other than Mr. T, was the boss named John "Hannibal" Smith. His signature line at the end of each show was "Don't you love it when a plan comes together?". Well, many plans continue to come together in Columbia County!

On Tuesday April 17th, the ribbon was cut to officially open the extension of Riverwatch Parkway into Columbia County; a project that has been on the books for almost thirty years. Funding was approved for the first phase back in the nineties and the remainder was not available until the passage of the Transportation Act of 2010, aka T-SPLOST. This is a tremendous asset to our citizens and I am sure you have already experienced the convenience of this expressway. Some plans take longer than others, but it is truly great when they come together.

Another plan that is about to come together is the widening of Washington Road from Gibbs Road to William Few Parkway. This 2010 SPLOST project is in the final stages of paving

and tainment to Columbia County. Thanks again to the voters for approving funds for this project in two different SPLOST and GO Bond referendums. All residents should "love it" when this plan comes together.

The March 19th groundbreaking for the new 550,000 sq. ft. warehouse for Club Car began a project that is set to be occupied in early 2019. That is fast for a building of this size. Thanks to our Development Authority for giving us this "plan" to celebrate in the new future.

The new signal at William Few Parkway and Chamblin Road seems to have alleviated much of that traffic delay. Again, thanks to our staff and GDOT for continuing to find solutions for this problem when a round-about plan was cost prohibitive.

Have you noticed the new Evans Towne Center Drive? This plan also was accomplished in a relatively short period of time to allow traffic to continue down the drive while protecting pedestrians walking between the Plaza and the park. Speaking of plans that came together, what about Evans

don't you love it?

and should be totally complete in another three weeks. The initial completion set for the end of 2017 has been pushed to now because of weather and utility issues. Thanks to the voters of Columbia County for financing this much needed project and this plan will come together shortly.

All projects do not take forever to be completed. Thanks to our traffic division and GDOT for the improvements at I-20 and Lewiston Road. The addition of another turn lane has made a tremendous difference in the back-up along I-20. It took more than a year in discussions with the Federal Highway Administration and GDOT to make this happen but that is rather fast in road improvement scheduling. We also "love it" more when things are accomplished quickly.

When compared to road projects, our Performing Arts Center will be built quickly. The groundbreaking on Feb. 28 started a two year journey to bring Broadway type enter-

Towne Park? Thanks again to you voters for supporting this park with your votes and your attendance. The second phase of that plan, The Plaza, when completed will be another great asset to the county.

A different type of plan that truly came together was the recent Rock Fore Dough concert and the Keith Urban concert. There was much concern about planning two major events only days apart; the details took some great cooperation between the promoters, county staff, and the artist's agents. Thanks to the officials of "First Tee of Augusta" and "Friends with Benefits" for making this plan a success. Combined attendance for these events was more than sixteen thousand people. Keith Urban had the largest attendance of any single event except Thunder over Evans.

Columbia County has a great history of plans coming together. In the years of my tenure, we have completed the Evans library and have since added one in Harlem and are planning now for the one in Grovetown. We added the first and second phases of Building C. We completed the Exhibition Center and added parking and additional rental facilities at Savannah Rapids Pavilion. We purchased Building G and started a wellness program in that building for employees, as well as leased a large portion to the Georgia

when a plan comes together?

Department of Revenue. We have completed a new Animal Services building, a new Health Department building, two Recycling Centers, an office for the Georgia State Patrol and the Department of Driver Services. We have added bike lanes and multi-purpose trails to many roadways and started a Greenway program that will ultimately cover almost all of the county. We have purchased land and completed Evans Towne Center Park and are currently adding an Evans town center called the Plaza, which includes planning and starting construction on the Performing Arts Center. We have completed Riverwatch Parkway and the widening of Washington Road along with connecting William Few Parkway with Hardy McManus Road. We have constructed much needed turn lanes in many locations around the county; started construction on Evans to Locks Road to complete the multi-use trail to the Savannah Rapids; several intersection improvements; and many others. Future improvements already financed include the addition to the Justice Center, an addition to the Detention Center, road widenings at Flowing Wells Road, Fury's Ferry Road, two portions of Lewiston Road, a new Building A in the government complex, the extension of Gateway Blvd. to Wrightsboro Road, four parks around different areas of the county and the widening of the bridge at I-20 and the Appling-Harlem Highway.

Projects in the planning stage not yet financed include the widening of Hardy McManus Road, Hereford Farm Road, Stevens Creek Road, and intersection improvements at Chamblin Road and Baker Place Road at Wrightsboro Road.

In addition we have seen an enormous influx of commercial development. The county has several new Wal-Marts, phase one and two of Mullins Crossing, the fabulous Gateway Development on both sides of I-20 and Lewiston Road, an

additional Lowes store and a new Home Depot. We have also added medical facilities such as many pharmacies, Prompt Care facilities, personal care and nursing facilities, and one day a hospital.

All of the above additions to the county and many more not mentioned have two very important things in common; one, a vision and good planning for the future of the county by the commission, and two, the support and input of our great county citizens. Very little of this would have happened without community involvement and voter support. The amazing thing is that these things have been accomplished while maintaining a triple A bond rating, a fully accredited and award winning Sheriff's Department and a ISO Class 1 Fire Service; more amazing when you consider that property taxes were lowered three times during that period.

You have to "Love it when a plan comes together" even if the plan takes a while. We in Columbia County have had much more than our share of good plans and celebration. Thanks to all of you for your support. We are truly blessed!

So while Hannibal, Mr. T, Face, Murdock, and the others complete their plans of action in reruns, we will continue to make Columbia County an excellent place to live in real time.

SERVICE CHARGE CREDIT INFORMATION

A stormwater credit is a reduction in the monthly stormwater utility service fee. The overall goal of the County is to give a credit to property owners that are reducing the impact of stormwater generated by their property. By reducing the peak discharge of stormwater from their property, through either a retention or detention facility such as a pond, property owners are helping the County protect properties downstream. By complying with the Federal National Pollutant Discharge Elimination System (NPDES) permit requirements, property owners are helping the County improve water quality. Columbia County is offering two types of credits for

this assistance: Peak Flow Reduction Credit (also known as a pond credit) and NPDES Water Quality Credit. The maximum amount of credit available is 50% of the total stormwater utility monthly service fee. For more information about the service charge credits, go to www.columbiacountyga.gov Stormwater department, billing and SERVICE CHARGE CREDIT INFORMATION. **REMINDER: Please remember that previously applied credits expire June 30. Please submit proper inspection documentation to prevent a discontinuation of any credits. If you have any questions, please contact 706.855.7246.**

SUMMER CAMPS AT REED CREEK PARK

WETLAND ADVENTURE CAMP Does your child love the outdoors? During Wetland Discovery Camp we will be outside exploring the wetland, creek and pond at Reed Creek Park. Each day children will discover something new about wetlands and enjoy hands-on activities designed to inspire a love of the outdoors. Activities will include creating mini wetland habitats, orienteering with park maps, wetland research, pond and creek exploration and using a microscope to observe microscopic aquatic life. Campers will need to bring sack lunch and reusable water bottle each day.

JUNE 4-8 (AGES 5-7) • JUNE 25-29 (AGES 8-12)
CAMP HOURS: 9AM – 1PM • COST: \$100/CHILD

JR. MASTER GARDENER CAMP: LEARN, GROW, EAT & GO! (AGES 6-10) Calling all gardeners! The Junior Master Gardener program is an international youth gardening program of the university cooperative Extension network. Join the CSRA Master Gardeners to learn all about plants – why they are important to us, how to grow a garden, and how to give plants what they need. Campers will participate in a vegetable gardening project and learn why the plants we are growing are important for health and nutrition. Children will be engaged in hands-on group activities and learning experiences that foster a love of gardening, develop an appreciation for the environment, and cultivate the mind. Campers will need to bring sack lunch and reusable water bottle each day.

DATES: JUNE 11-15
CAMP HOURS: 9AM – 1PM • COST: \$100/CHILD

CSRA ADVENTURE CAMP (AGES 12-14)

Campers will meet at Reed Creek Nature Park each morning, then set out to explore the many outdoor activities in the CSRA: the Savannah River by kayak, practice their binocular skills while birding at Silver Bluff Audubon Preserve, become an Ecologist for a Day at Savannah River Ecology Lab and other fun outings. On Thursday we will spend the day at Wildwood Park with disc golf, kayaking, swimming and a cook out. Campers will need to bring a sack lunch, a snack, and a reusable water bottle every day except Thursday. Lunch will be served at Wildwood Park Thursday.

DATES: JULY 9-13
CAMP HOURS: 9AM – 3PM • COST: \$150/CHILD
